

WEBINAR

The Faculty Workload and Rewards Project

Final Capstone Reflections

Monday, November 18, 11:15 am Eastern

What are the most intractable problems that institutions face as they go about creating workload reform to be more strategic and equitable?

What are the cultural immunities to change we need to examine?

What did exploration of these issues with academic departments and small colleges teach us about equity-minded workload reform that can be useful for your department, college, or university?

Date: November 18, 2019

Time: 11:15 am – 12:30 pm Eastern

Key Findings

KerryAnn O'Meara, PI
Professor of Higher Education
Associate Dean,
College of Education;
Director, UMD ADVANCE

Respondents

Sheryl Ehrmann, Dean of Engineering,
San Jose State University

Kiernan Mathews, Executive Director and PI,
The Collaborative on Academic Careers in
Higher Education, Harvard University

The Faculty Workload and Rewards Project is an NSF ADVANCE funded, collaborative, action research project. Academic department teams study their own workload data, consider and then adopt policies and practices to ensure equity in how teaching and service is taken up, assigned, and rewarded.

This project is funded by the National Science Foundation under ADVANCE Award: 1463898.
